This is your opportunity to hear about rail developments locally and countrywide. Our Conference, starting at 13:40, is free, and members of the public are very welcome to come and listen to our three rail professional speakers and ask them questions. You'll also be able to put forward your own views about the Far North Line.

This year we have:

- **Lee Ross**, Network Rail Perth, Infrastructure Maintenance Delivery Manager.
- **Alan Ross**, Director Engineering and Asset Management, Network Rail, who will give a 'Show & Tell' talk marking 40 years of RETB on the far North Line.
- As always there will also be an update on the work of HITRANS.
